

FUNDAMENTAL CRITICAL CARE SUPPORT (FCCS) COURSE

COURSE DESCRIPTION

Fundamental Critical Care Support (FCCS) is an internationally recognized two-day comprehensive course addressing fundamental management principles for the first 24 hours of critical care. This course was developed and licensed by the Society of Critical Care Medicine (USA) and is locally administered by the Society of Intensive Care Medicine (Singapore).

Through didactic sessions and hands-on skill stations, participants will acquire the necessary knowledge to prioritise the needs of all critically ill and injured patients, identify and plan appropriate management of acute life-threatening conditions and determine the need for expert consultation and / or patient transfer.

At the end of the course, participants are required to sit for a theory test. A certificate issued by the American Society of Critical Care Medicine will be awarded to successful participants.

COURSE OBJECTIVES

- Prioritise assessment needs for the critically ill patient.
- Select appropriate diagnostic tests.
- Identify and respond to significant changes in the unstable patient.
- Recognise and initiate management of acute life-threatening conditions.
- Determine the need for expert consultation and/or patient transfer and prepare the practitioner for optimally accomplishing transfer
